What is Mutual Aid?

Mutual Aid is when everyday people get together to meet each other's needs, an exchange of resources. Its ideals and practices are based on the principles of direct action, cooperation, mutual understanding and solidarity.

Mutual Aid is a core component of who we are as humans and our way of life; understanding that we're in this together.

MESSAGE FROM OUR FOUNDER

Since MAP started in the summer of 2020, our values and our dedication to this community have only grown stronger. We know the impact we co-create is exponentially greater due to our emphasis on cooperative partnerships, as well as our positioning of meaningful outreach through the lens of accessibility and a dignity-centered approach.

In 2022, we were able to assist over 15,000 families through the weekly distribution of essential resources including food, clothing, and hygiene products, as well as advocacy and facilitated access to education, sanitation, health care, and shelter. As you can see, MAP’s impact goes beyond meeting basic needs.

We are grateful for the power of commUNITY and want to say THANK YOU for your energy, love and support. We can’t wait to see what we’ll accomplish together in the new year!

-Stephania Vasconez, Founder & Executive Director
